

INTEGRATING AUTOVITALS AND TEKMETRIC

Aspen Auto Clinic uses AutoVitals' DVI, workflow, & reporting with Tekmetric to boost revenue and efficiency at their six locations.

BEFORE AUTOVITALS

Aspen Auto Clinic used Tekmetric's shop management system and digital inspections.

 **THE CHALLENGE:** "Tekmetric's inspections did not cut it. Too many times a day, I had to take a ticket back to a technician. The pictures were fine, but there was no ability to edit them. So, I would get a lot of questions from customers like, 'What am I looking at?'. That was why we moved to AutoVitals."

TATIANA BIRKES

Aspen Auto Clinic

"Customers are absolutely blown away with AutoVitals' inspections. I have definitely seen an increase in ARO and sales".

SOLUTION & BENEFITS

After implementing AutoVitals' DVI, Aspen Auto Clinic increased revenue across its six locations and improved customer service. Aspen Auto Clinic also uses AutoVitals' multi-location reporting to manage its shops' performance.

 **Customer Satisfaction**
Customers love the detailed inspection reports with edited pictures and videos.

 **Efficient & Effective Inspections**
Inspections are done right the first time, resulting in higher approvals.

 **Increased Revenue**
"AutoVitals inspections make us a significant amount of additional revenue".
